

## YOUR NEGATIVES

Fingermarks and scratches will spoil your negatives — even the slightest fingermark may mar subsequent Print Quality.

We strongly RECOMMEND:-

1. Keep the negatives in the folder provided and store flat.
2. When you remove the negatives, handle them CAREFULLY by the edges only.

**IMPORTANT: Do not cut negative strips!**

Use this folder for ordering prints and enlargements from these negatives, but . . .  
**Do not write on this folder when negative strip is inside! Handle strip by edges only.**
